

# CABLE MANAGEMENT BRACKET

## Switch Management Bracket 3500 Series (SMB #3500)

Another Cable Management Solution from...  
**YOUR TRUSTED DATA CENTER PARTNER**

### PRODUCT HIGHLIGHTS

NEW 3500 bracket eliminates need for system-wide outages when adding or replacing a blade/swappable fan card

Creates a more serviceable data center environment, reducing network down time & improves disaster recovery time for business continuity

For use on ANY new or existing 48-port Cisco or HP switch installation in your data center

Features slotted management bars for securing cables with velcro/tie wraps

Key component of our network plug & play solutions
